

VASCULAR 2008 – VASCULAR SURGERY PROGRAMME OUTLINE

NOTE: This program is subject to change

Last Updated: 9/9/2008

THURSDAY 11 SEPTEMBER 2008

1600 – 1730	ACCREDITATION OF VASCULAR LABORATORY INFORMATION & UPDATE Session Chair: Bernard Bourke Panel Members: Michael Grigg, John Harris, Phil Walker Session Room: Hall E
--------------------	---

FRIDAY 12 SEPTEMBER 2008

0700 – 0800	Cook Medical Breakfast Symposium Session Room Meeting Room 3
0800 - 0815	Move between Session
0815 - 1030	Plenary Session 1: VTE and Basic Sciences (concurrent IUA session) Session Chairs: Robert Fitridge and Kevin Burnand Session Room: Hall E
	Results of ENDORSE - Multinational Observational Audit of Venous Thromboembolism Prophylaxis in Surgical and Medical Patients <i>Alex Gallus</i>
	Current National Venous Thromboembolism Prevention Guidelines: The Role of Guideline Compliance in Assessment of Best Practice <i>John Fletcher</i>
	Post – Operative Venous Thromboembolism: An Asian Perspective <i>NC Liew</i>
	International Guidelines for Venous Thromboembolism Prevention: Their Application in the UK and Beyond <i>TBC</i>
	Cancer Associated Thrombosis <i>John Fletcher</i>
	Factors Influencing Duration of Anticoagulation in Patients with Venous Thrombosis <i>Simon McRae</i>
	Panel Questions <i>Alex Gallus, John Fletcher, Ajay Kakkar, Simon McRae, N C Liew</i>
	Update on Studies aimed at Improving Understanding of Abdominal Aortic Aneurysm Pathogenesis: Can they add anything to Patient Management? <i>Jonathan Golledge</i>
	Imaging of the Unstable Plaque <i>Stephen Worthley</i>
	Mechanisms of Atherosclerotic Plaque Instability. Acute Modulation of the Symptomatic Plaque. <i>Matthew Thompson</i>
	Panel Questions <i>Jonathan Golledge, Prof Stephen Worthley and Prof Matthew Thompson</i>
1030 - 1100	Morning Tea
1100 – 1300	Plenary Session 2: Great Debates – Controversies in Vascular Surgery 2008 Session Chair: Prof John Harris Panel : Frank Criado, Kevin Burnand and Wallace Foster Session Room: Hall E
	Fenestrated Stent Grafting Versus Hybrid Procedures for Thoracoabdominal Aortic Aneurysms <i>Matthew Thompson (hybrid)</i> <i>Claudio Cina (fenestrated)</i> Followed by Panel Questions
	There is No Evidence on the Efficacy of SFA Stenting for Claudication <i>Frank Criado (stent)</i> <i>Harry Gibbs (medical therapy)</i> Followed by Panel Questions
	Renal Artery Stenting is a Legitimate Treatment in the Hypertensive Patient <i>Andrew Holden (pro renal artery stenting)</i> <i>Stephen McDonald (against renal artery stenting)</i> Followed by Panel Questions
	A Centralized De-identified Total Practice Audit is the Best Approach to Maintaining and Improving Standards in Contemporary Vascular Practice <i>Michael Grigg</i> <i>Geoff White</i> Followed by Panel Questions

VASCULAR 2008 – VASCULAR SURGERY PROGRAMME OUTLINE

NOTE: This program is subject to change

Last Updated: 9/9/2008

1300 - 1400	Lunch
1300 - 1400	Lunchtime Symposium – BTK therapy and treatment options for the diabetic foot <i>proudly sponsored by Biotronik</i> Session Room: Riverbank 3
1400 - 1545	Plenary Session 3 – Innovations in Endovascular Treatment of Vascular Disease (proudly sponsored by Cook Medical) Session Chairs: Michael Denton and Frank Criado Session Room: Hall E
	Hemodynamics of Stent Grafts <i>Michael Lawrence-Brown</i>
	Totally Laparoscopic Aortic Surgery: Experience in a French Academic Center <i>Matthieu Guillou</i>
	Type 2 Endoleaks – Translumbar Sac Glue <i>Ruben Sebben</i>
	Assessment of aortic sac size and the role of sac volume in monitoring Endoleaks Travis Tate and Andrew Dawe
	Advances in IVC Filters <i>Harry Gibbs</i>
	The Future of Drug Eluting Stents and Developing Technologies in the Peripheral Circulation <i>Lewis Schwartz</i>
	The Use of the ANACONDA System in the Management of Aneurismal Disease: The Canadian Experience <i>Claudio Cina</i>
	Update on the Role of Carotid Stenting <i>Frank Criado</i>
	Panel Discussion
1545 - 1615	Afternoon Tea
1615 – 1730	Plenary Session 4: AAA (proudly sponsored by Medtronic) Session Chair: Michael Lawrence-Brown and YP Leong Session Room: Hall E
	Screening for AAA in First World Populations: Is it Worthwhile? <i>Marge Lovell</i>
	Anatomical Risk Grading System for EVAR: A revised scheme Geoff White
	A Model to Predict Outcomes for Endovascular Aneurysm Repair Using Preoperative Variables <i>Robert Fitridge</i>
	The use of Peri-Operative BETA Blockers in Vascular Surgery is Under Utilised <i>Oliver David</i>
	Experience with EVAR in an Asian Population <i>YP Leong</i>
	Aortic infection and Melioidosis <i>SK Lee</i>
	Panel Discussion
CLOSE FOR THE DAY	

VASCULAR 2008 – VASCULAR SURGERY PROGRAMME OUTLINE

NOTE: This program is subject to change

Last Updated: 9/9/2008

SATURDAY 13 SEPTEMBER 2008

0700 - 0830	Cook Medical Breakfast Symposium Session Room: Meeting Room 3
0700 - 0830	Medtronic Breakfast Symposium Session Room: Riverbank 1
0830 – 1015	Plenary Session 5: Management of the Diabetic Foot - proudly sponsored by Biotronik Session Chairs: Michael Grigg and Kevin Mossinac Session Room: Hall E
	The Diabetic Foot in Australasia- How should we deal with the epidemic? <i>Robert Fitridge</i>
	The Diabetic Foot: A Malaysian Perspective <i>Hanif Hussein</i>
	Offloading and Orthotics <i>Chris Wiebelt</i>
	Topical Negative Pressure (TNP) Therapy in the Management of Diabetic Foot Wounds- Current practice in New Zealand <i>David Lewis</i>
	Assessment of Foot Perfusion to Predict Healing – Who should be Revascularised <i>Frank Quigley</i>
	MR Imaging in the Diabetic Foot <i>Ruben Sebben</i>
	The Role of Infragenicular Angioplasty in the Management of Critical Limb Ischaemia in the Diabetic Foot <i>Andrej Schmidt</i>
	Tibial Bypass in an Asian Population <i>NC Liew</i>
	Panel Discussion
1015 – 1045	Morning Tea
1045 - 1230	Plenary Session 6: Thoracic Aorta Session Chairs: Geoff Cox and David King Session Room: Hall E
	Pathogenesis of Aortic Dissection and their Clinical Implications <i>Jonathan Golledge</i>
	Treating Type B Dissections – Technical Advances <i>Matt Thompson</i>
	The Management of Thoracic Aortic Trauma <i>Michael Berce</i>
	Identifying the at Risk Patient and Strategies to Minimize Risk of Paraplegia <i>Claudio Cina</i>
	Multi-Techs applicated in EVAR for the Aortic Dissections with entrances near to the main Branch of Aorta <i>Zhao Jun</i>
	Branch Preservation to Maintain Vessel Flow during Aortic Endografting <i>Frank Criado</i>
	TEVAR in a Chinese Population <i>Zhao Jun</i>
	Improvements in Rates of Stroke and Paraplegia Associated with Thoracic Endografting <i>Raffi Qasabian</i>
	Neurological complications are increased following left subclavian artery (LSA) coverage in TEVAR irrespective of revascularisation: systematic review and meta-analysis <i>Jonathan Boyle</i>
	Panel Discussion
1230 – 1330	Lunch

VASCULAR 2008 – VASCULAR SURGERY PROGRAMME OUTLINE

NOTE: This program is subject to change

Last Updated: 9/9/2008

1330 - 1530	Plenary Session 7: PAD (proudly sponsored by J&J) Session Chairs: John Fletcher and Larry Ferguson Session Room: Riverbank 1	1330 - 1530	Plenary Session 8: Renal Access and Venous Session Chairs: Kishore Sieunarine and Ian Spark Session Room: Hall E
	A Nursing Perspective - A National Programme for Risk Factor Modification in Vascular Patients <i>Marge Lovell</i>		Debate: Management of Venous Skin Changes and Ulcers in Mixed, Deep and Superficial Incompetence <i>John Kingsley (Endovenous)</i> <i>Alan Kruger (Compression)</i> <i>Kevin Burnand (Operative)</i>
	Infra Popliteal Angioplasty <i>Kiang Hiong Tay</i>		Panel Questions
	The Role of Adjunctive Medical Therapies in Patients with CLI <i>Harry Gibbs</i>		Changing Trends in Dialysis Access: 40 Years of Experience <i>Frederick Schild</i>
	Vascular Imaging in Patients with Chronic Renal Insufficiency <i>Michael Collins</i>		Early Use of New Prosthetic Grafts in AV Fistula <i>Frederick Schild</i>
	Results of an endovascular intervention – first policy in a limb salvage programme among patients with critical ischemia in Singapore <i>Mathieu Sebastian</i>		Strategies to Prolong Autogenous Vein Use in Haemodialysis Vascular Access <i>Kevin Moissinac</i>
	Reduction in intimal hyperplasia in arterial stents and bypass grafts by generation of helical flow: a promising new clinical technology <i>Geoff White</i>		Management of Steal Syndrome in Vascular Surgery <i>Hanafiah Harunarashid</i>
	Risk Factor Modification in Vascular Patients: Audit Against Joint British Societies Guidelines <i>Nadia Blest</i>		Management of hand ischemia post AV access: Results of the DRIL procedure <i>Karl Illig</i>
	Surgical Revascularisation after Failed Percutaneous Intervention <i>Peter Robless</i>		Pathophysiology of Venous Ulcers <i>Kevin Burnand</i>
	Panel Discussion		Panel Discussion
1530 - 1600	Afternoon Tea		
1600 - 1730	<u>ANZSVS AGM</u>		
CONFERENCE DINNER			

VASCULAR 2008 – VASCULAR SURGERY PROGRAMME OUTLINE

NOTE: This program is subject to change

Last Updated: 9/9/2008

SUNDAY 14 SEPTEMBER 2008

0830 - 1015	Plenary Session 9: Education, Audit and Credentialing Session Chair: Karl Illig and John Quinn Session Room: Hall E
	New Technology in Surgery: How Do we Know it Works? <i>Guy Maddern</i>
	Surgical Simulation – Or Clinical Trial and Error? <i>Guy Maddern</i>
	Vascular Specific CPD <i>Bernard Bourke</i>
	Should we Train the Vascular Trainers? Results of a Randomized Trial <i>Michael Murphy</i>
	Vascular Training in Malaysia <i>Zainal Ariffin Azizi</i>
	Innovations in Training the US Vascular Surgeon <i>Karl Illig</i>
	Vascular Training in the Era of SET <i>Alan Scott</i>
	Justin Miller Oration: Training the Vascular Surgeon in the New Millennium (introduced by Michael Grigg – Pres ANZSVS) <i>Kevin Burnand</i>
1015 - 1045	Morning Tea
1045 -1200	Plenary Session 10: Carotid Session Chair: Bernie Bourke and Wallace Foster Session Room: Hall E
	Stroke Service – A Model for an Integrated Team <i>Jim Jannes</i>
	The timing of Carotid Intervention Post Stroke <i>Bernie Bourke</i>
	Surgical Treatment of Acute Cerebral Ischemia (S.T.A.C.I.): On-Going Results of a Prospective Multicenter in Italian Registry <i>Enrica Sbarigia</i>
	Vertebral Angioplasty and Stenting <i>TBC</i>
	Cerebrovascular disease in Malaysia <i>Hanafiah Harunarashid</i>
	Update on Thrombolysis in Acute Stroke Syndromes <i>Andrew Lee</i>
	Panel Discussion
CONFERENCE CLOSE
